PROVISA Temporary Crown & Bridge Material

Temporaries aren't supposed to last forever, but they need to withstand abuse from neglectful patients – and look good doing so. Provisa C&B delivers the strength you need combined with the esthetics that patients desire. This auto mixing, easy handling material offers all of these benefits:

- Automix cartridges for homogeneous, bubble-free dispensing
- Easy application
- Low polymerization shrinkage for a precision fit
- Highly biocompatible formulation
- Virtually irritation-free due to low temperature change
- Strong, abrasion-resistant formula
- High flexural strength for longer spans
- Natural esthetics and fluorescence
- Highly polishable and color-stable
- Setting time: 90 – 120 seconds

PROVISA C&B

Kit includes one 50ml automix 10:1 cartridge and 15 mix tips.

A1	[3837-547]	A3.5	[3441-885]
A2	[3441-876]	B1	[3441-894]
		Bleach	[3441-901]

PROVISAcem temporary cement

Use PROVISAcem temporary cement in conjunction with PROVISA C&B for the ideal synergy of materials. This eugenol-free formula will help maximize your ability to create patient-pleasing provisionals while facilitating their eventual removal.

- Easy dispensing and a bubble-free mix
- Timesaving direct application
- Eugenol-free formula does not inhibit polymerization
- Low film thickness for an optimal fit

PROVISA CEM

Syringe Kit
5ml syringe & 10 mix tips [3504-290]
