From increased efficiency to enhanced patient experience and improved clinical outcomes, CO2 all-tissue lasers in dentistry are quickly becoming the new standard of care for a myriad of dental procedures.

During this course, you will learn how a CO2 all-tissue laser can easily integrate into your dental practice to enable:

- Dramatic efficiency gains from reliably anesthesia-free hard and soft-tissue procedures
  - o Learn how a CO2 all-tissue laser eliminates anesthesia for 80-90% of all procedures while increasing your production volume by 30-50%
- Blood-free, suture-free and pain-free soft tissue procedures you can perform in-house, rather than referring them out
  - o Perform crown lengthenings, gingivectomies, frenectomies, and treat aphthous ulcers and much more
- Amazing patient experience and increased referrals
  - o Patients no longer equate visiting the dentist with a fear of the needle or drill, and reliably anesthesia-free means they can get back to their day in minutes

Dr. Spector will walk through dozens of clinical cases highlighting the various ways he uses a CO2 all-tissue laser. In addition, you will participate in a hands-on session to gain experience cutting extracted teeth and porcine mandibles using this all-tissue laser.

**ADA C.E.R.P.** Benco Dental is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Benco Dental designates this activity for 3 continuing education credits. No additional discounts apply. Refund policy: All requests for refunds or cancellations must be received in writing 45 days notice. There will be no refund for "no shows." Send cancellations to: Marc Bruckner at [mbruckner@convergentdental.com](mailto:mbruckner@convergentdental.com) or (201) 321-3906.

The continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Benco Dental and Convergent Dental.

Certain Benco costs associated with this event are required to be reported as being provided to attending dentists pursuant to the Federal Open Payments Law (i.e. Sunshine Act). For further info see [www.benco.com/sunshineact](http://www.benco.com/sunshineact).

This continuing education program is provided pursuant to the laws, regulations, and accepted dental practices of the state in which it is being provided. Participants should not assume that all the practices, policies, procedures, and techniques outlined in this course will be applicable to the practice of dentistry in other states. As such, participants who practice in other states should refer to the rules and rulings of their own state dental boards to determine the applicability and the appropriateness of the instruction provided.
