

Ready to move to the Cloud?

Whether you need to create a virtual office in the face of a disaster or have the need for 24/7 access to your patient data, a Cloud solution can provide you the tools you need for the success of your practice! Whether planned or unexpected, moving to the Cloud can be an additional expense and we want to help!

More Reasons to Go to the Cloud:

Freedom

Connect to your data from anywhere—in the office, at home, on your mobile device.

Sharing

Access your data across multiple office locations.

Integration

Our products seamlessly integrate within the Cloud environment.

Compliant

Our Cloud is HIPAA-compliant.

Inclusive pricing

One low monthly price for software and support. We even offer emergency Saturday hours.

Time Saver

Spend less time managing your IT headaches.

Security

Know that your sensitive information is being properly secured, updated, backed-up and monitored 24/7.
